

Long Term Plan KS4/5 Cycle B

Key Stage 4 and 5 runs on a four year cycle. This allows for us to carefully plan and create our classes with a mixture of key stage 4 and 5 young people. This ensures our class groupings consider pathway, peers and personality rather than merely age.

Yearly cycles are structured to allow for full coverage for KS4 whilst also allowing KS5 pupils the opportunity to return to and build upon prior knowledge.

In addition to our core curriculum shown below pupils also participate in weekly Enrichment lessons to provide opportunities to explore interests and leisure activities related to dance, drama, art and outdoor experiences.

To supplement our core curriculum learners entering Key Stage 4 have the opportunity to select 2 options from:

Music

Cookery

swimming

IT, photography and media.

Gatsby Benchmarks are incorporated within our Preparing for Adulthood Curriculum and through work experience opportunities both within and outside of school.
