

**A**  
A

trip to the audiologist

  
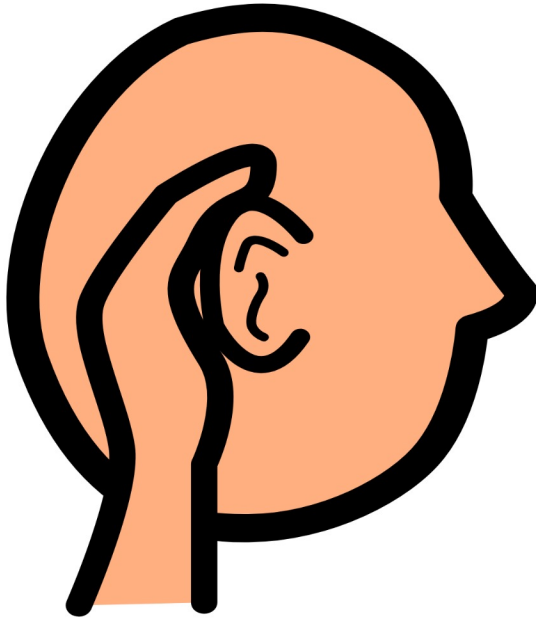

Soon

  
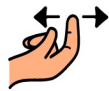

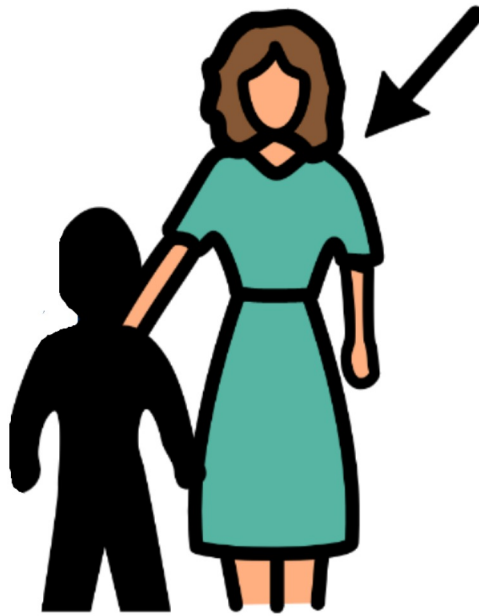

I

  
will get my

 hearing tested.

     
Our ears help us to hear.

Mummy will come with me to my hearing test.

When

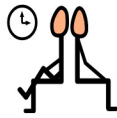

I

get to the appointment

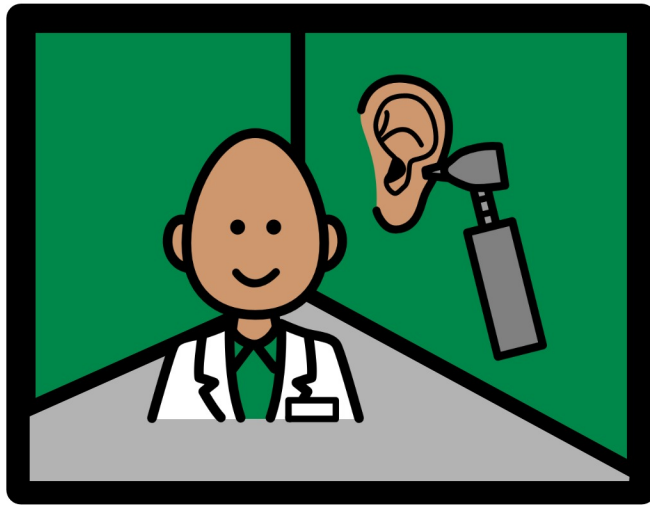

I

might

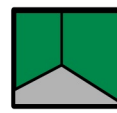

have to wait for a little while.

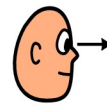

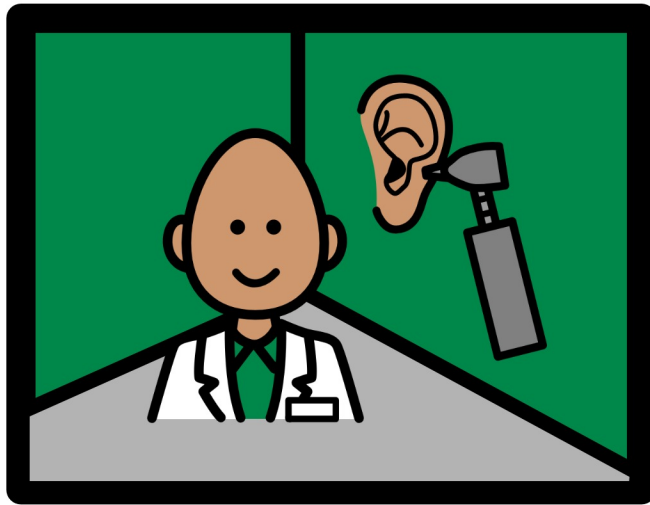

When it is my turn I will walk to the

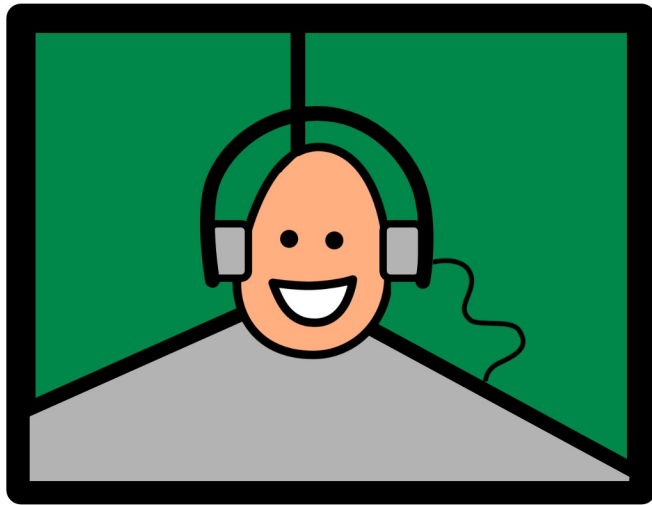

audiologists room. It is a small room.

The audiologist might want to look in my ears

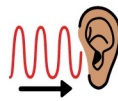

with a special tool called an otoscope.

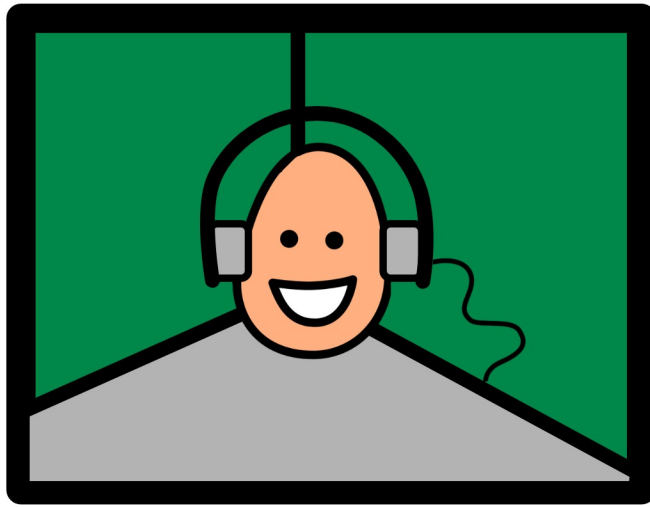

I

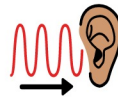

might have to put some headphones on

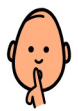

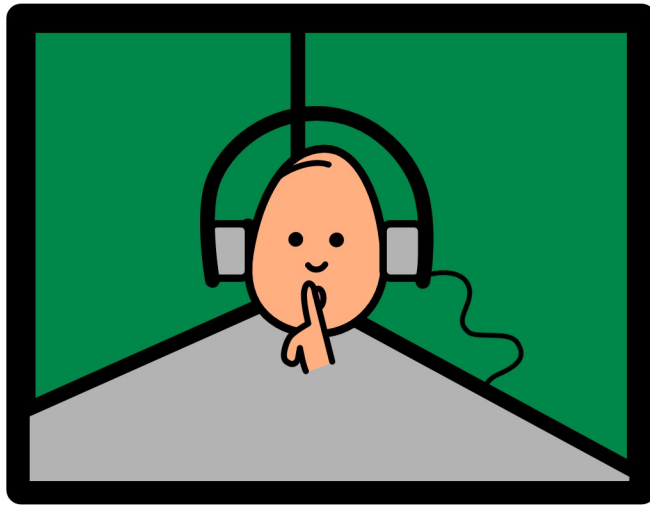

and listen for a beep sound.

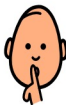

The headphones will have wires. It is okay.

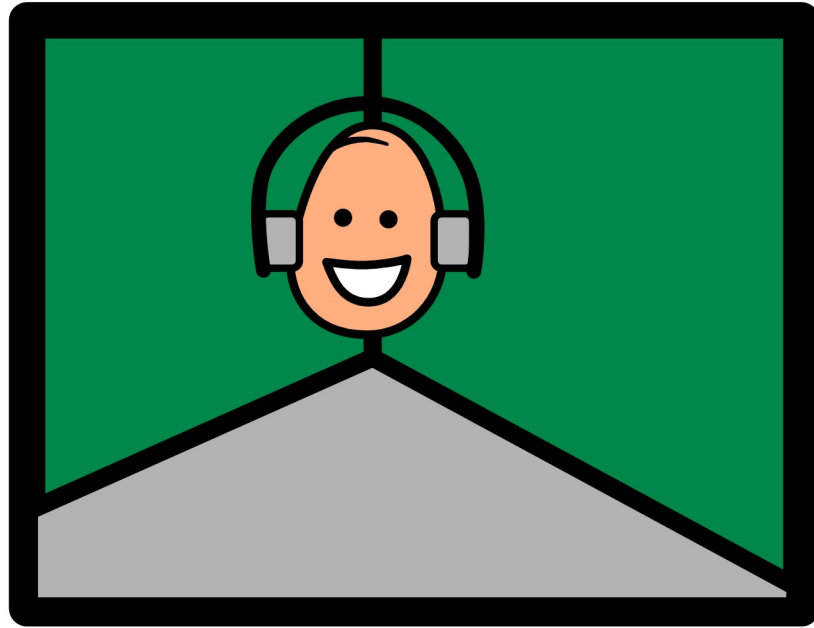

They are there to help the sound come through.

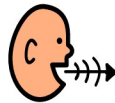

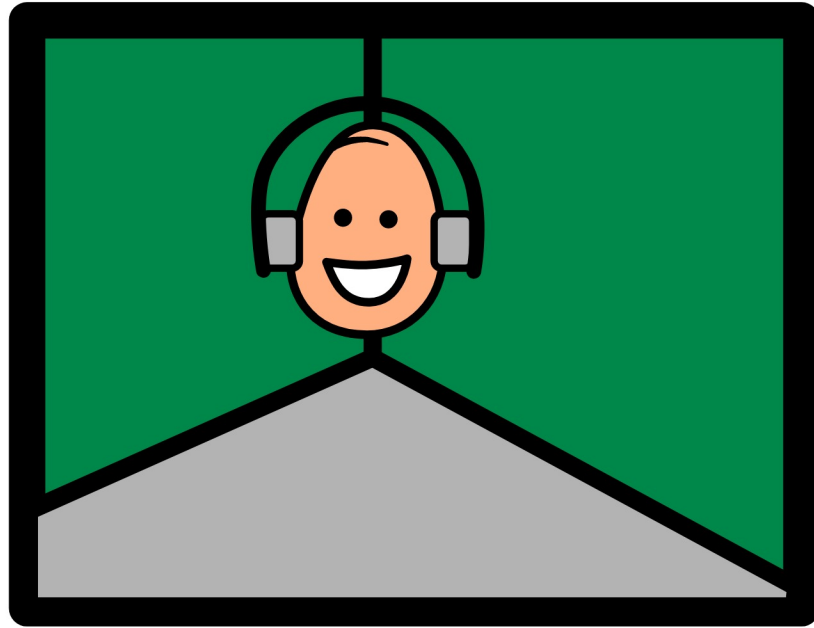

Some beeps will be loud. Some will be quiet. I

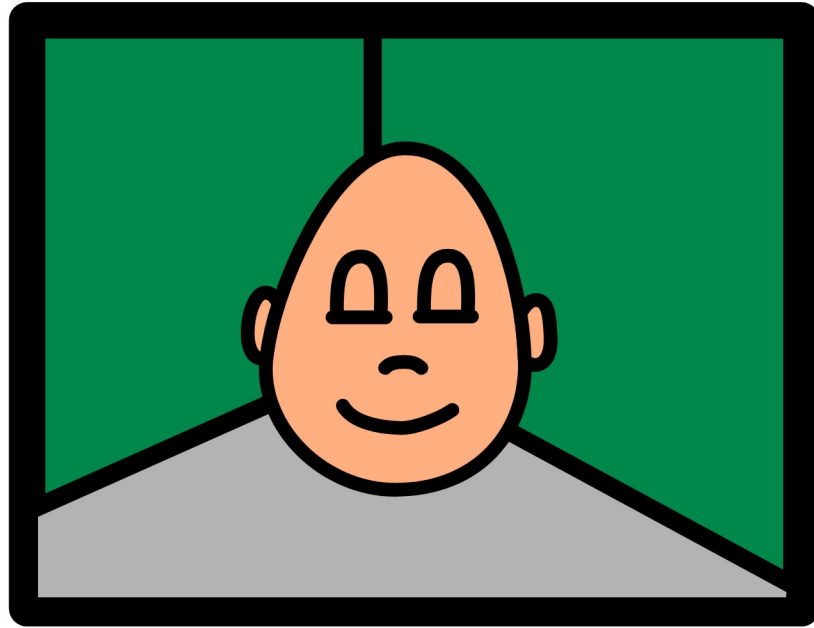

will try to keep quiet so I can hear them.

If I hear a sound I tell the audiologist.

The audiologist will tell me when we are finished.

will

try

to remember

to stay

calm.

Well done
