

Going to have a blood test

I am going to have a blood test.

1 2 3

First

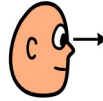

I

will

go

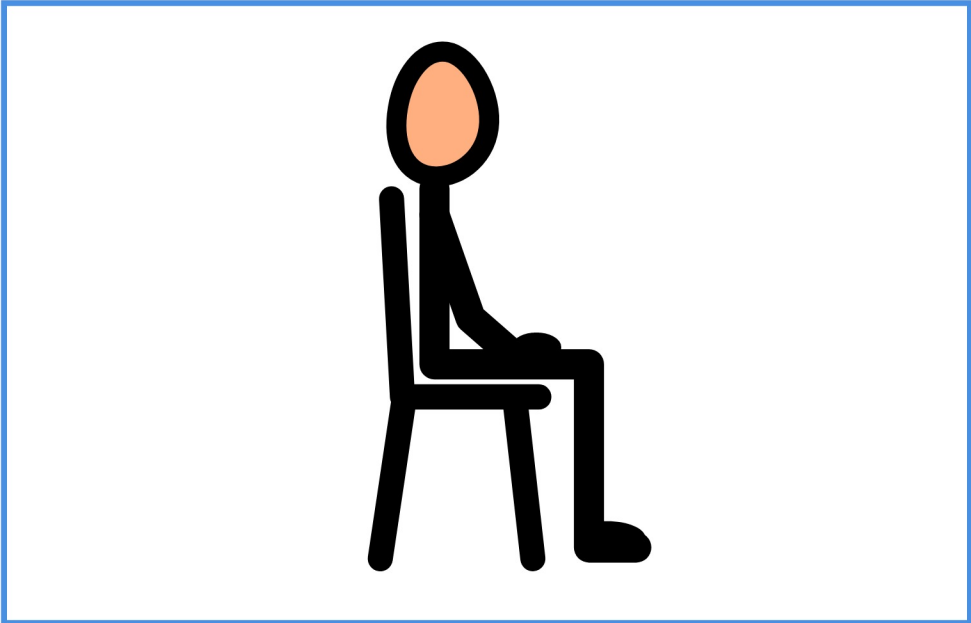

to

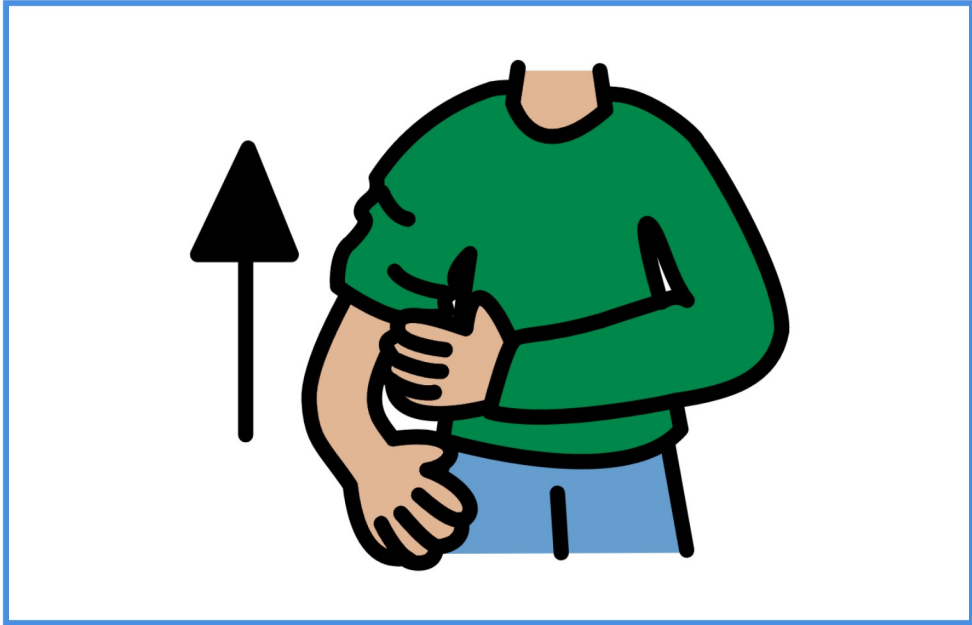

see

the nurse.

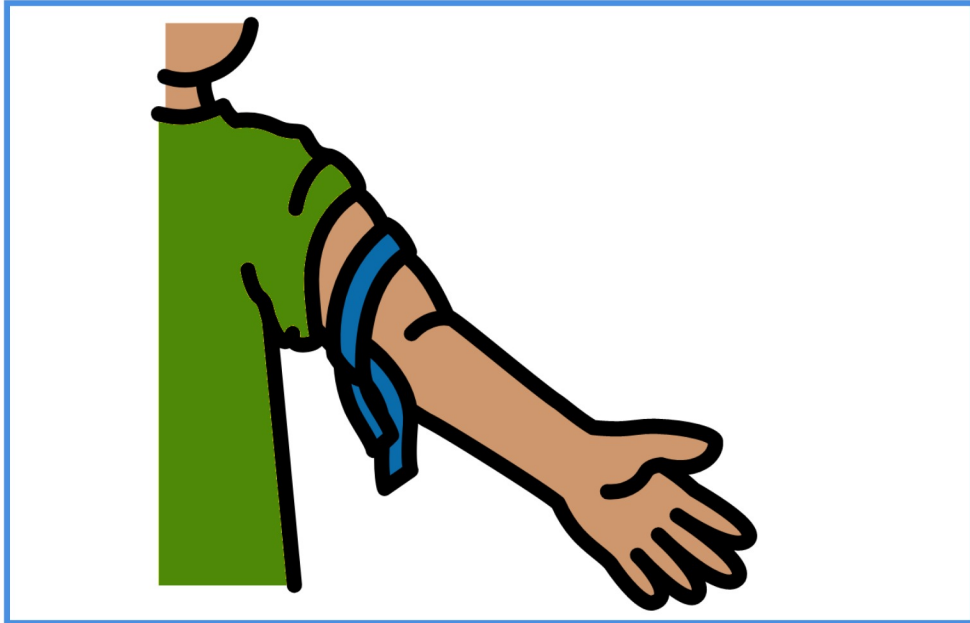

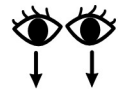

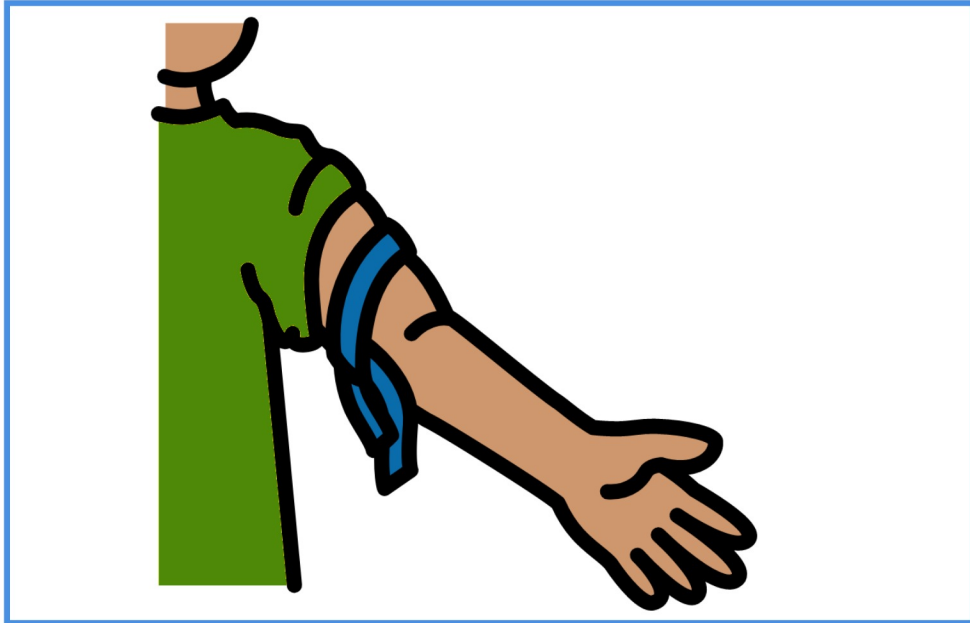

I sit still .

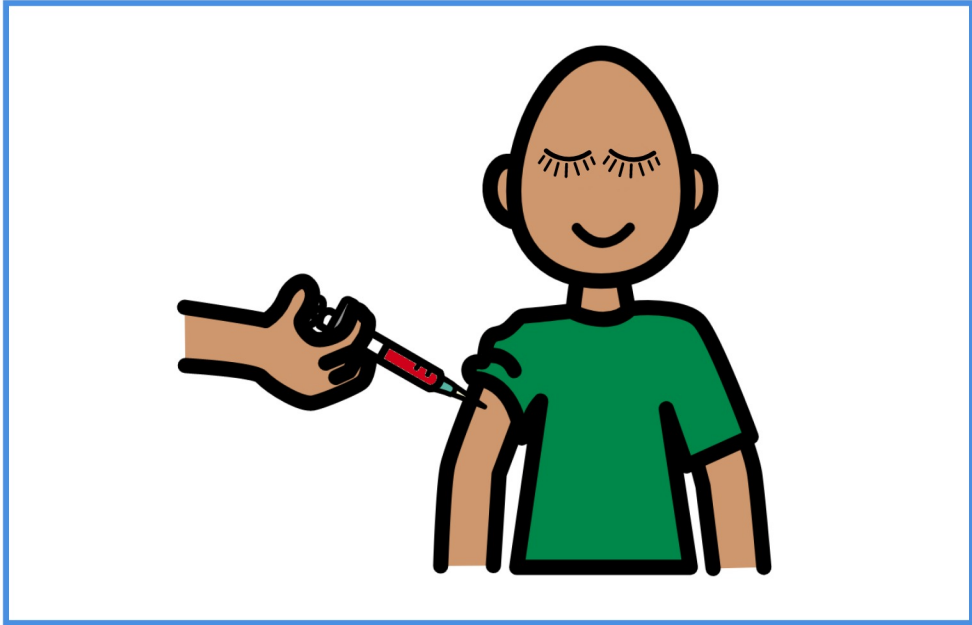

I pull up my sleeve.

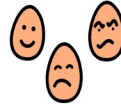

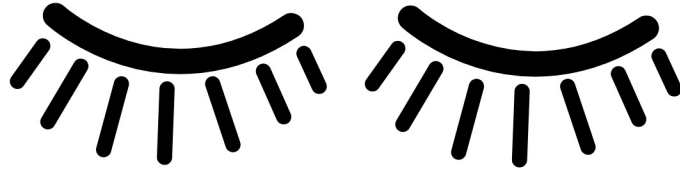

The nurse will put a band around my arm.

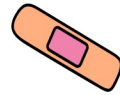

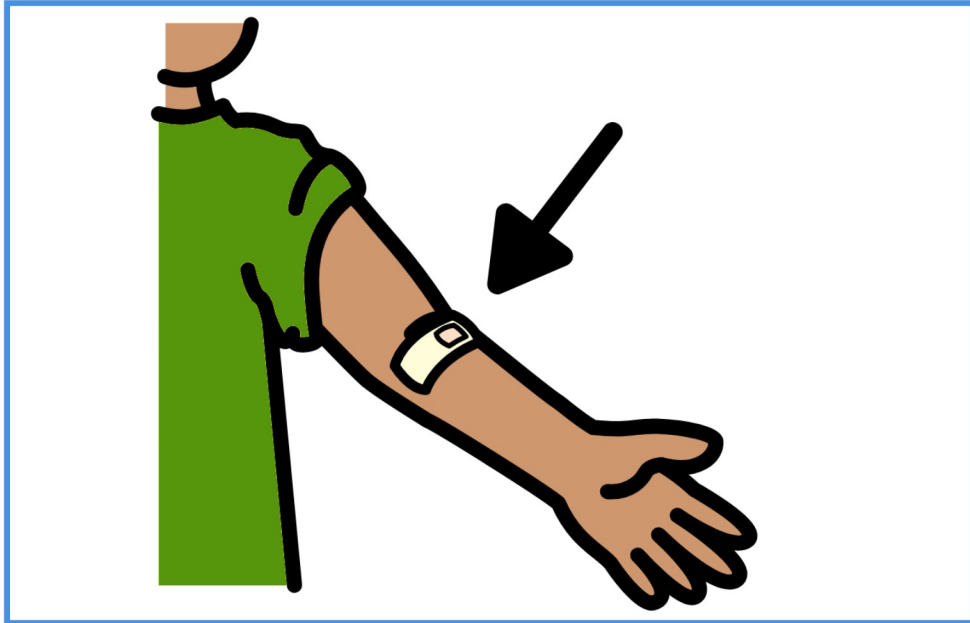

It is okay. It shows the nurse where to look.

The nurse will scratch my arm. It is okay.

I can close my eyes if I feel scared.

The nurse will put a plaster on.

All finished.
